Best-Selling  
**Implant  
Motor**

*"I have really enjoyed my Aseptico AEU-6000. It meets all my surgery needs, from placing implants to removing full bony impacted wisdom teeth.*

*I have found that this unit has more features and better torque than my old W&H... Ever since using the Aseptico product my W&H hasn't seen the light of day."*

# Best-Selling Implant Motor

The AEU-6000 is quickly becoming the **best-selling implant motor** on the market because of its reliability and affordability. The AEU-6000, coupled with the 20:1 Mont Blanc handpiece, gives its operator the freedom to **use any implant system available** on the market today.

This versatile machine performs standard or mini implants, third molar extractions, and even endo (*with auto-stop-reverse*). No other machine can give you all these benefits at such an **affordable price**.

With **upgradeable software** this unit will be a workhorse for many years to come. Autoclavable irrigation tubing means you don't have to buy tubing for every procedure. **Five preset buttons** can be programmed separately for both implants and endodontics, reducing your procedure time dramatically.

**Ideal for ALL traditional and mini implants.**
